

# Food Safety Labeling

The Ishida IL-2000SA, a compact label printer with ultra-fast printing speed and front-loading label cassette, helps increase productivity in any labeling application.

The intuitive color touchscreen streamlines operation while the compact size optimizes workspace.

The IL-2000SA prints all Health Department required information. It also has the ability to print labels with ingredient and nutritional information for carry out.

Key benefits:

- Eliminate large inventory of preprinted labels
- Reduce waste of soiled labels
- Ensure accurate information
- Minimize discarding of expensive mislabeled product

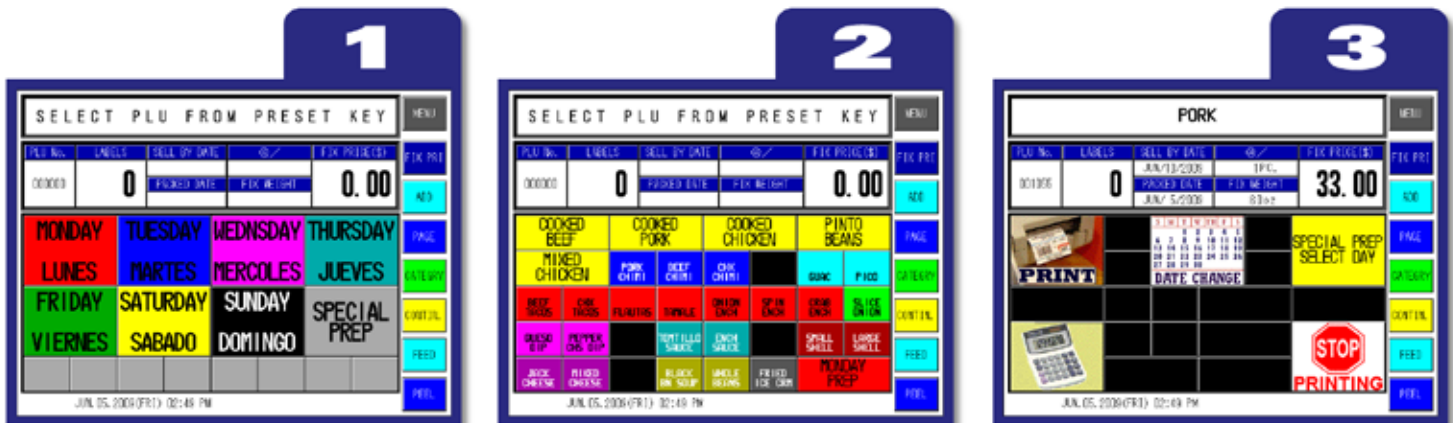

The color touchscreen, small footprint and custom label features make the IL-2000SA ideal for all required food safety labeling.
